

**GROUNDWATER RESOURCES ISSUES IN COASTAL MID-ATLANTIC:
Focus on impacts of mining and causes & solutions to saline intrusion**

Thursday October 4, 2012 - Greenville, North Carolina

Symposium organizers:

**American
Ground Water
Trust**

**American Institute
of Professional
Geologists**

**In cooperation with:
East Carolina University
and
East Carolina Institute for
Coastal Water Resources**

Program Details, Registration and Exhibit and Sponsorship options will be available soon

American ground Water Trust - American Institute of Professional Geologists

The American Institute of Professional Geologists (AIPG), was founded in 1963, and is the largest association dedicated to promoting geology as a profession. It presently has more than 5,500 members in the U.S. The purposes of the Institute:

- Advance the geological sciences and the profession of geology
- Establish qualifications for professional geologists
- Certify the qualifications of specific individual Member geologists to the public
- Promote high standards of ethical conduct among its Members and Adjuncts, and within the profession of geology
- Represent, and advocate for, the geological profession before government and the general public.

The American Ground Water Trust AGWT was formed in 1986 as a non-profit education organization with the mission of promoting interest and awareness in ground water issues and to achieve the objective of science-based water resources policies at local, state and federal level. Specifically, the AGWT's conference and workshop programs and educational materials seek to:

- Communicate the environmental and economic value of ground water
- Showcase ground water science and technology solutions
- Increase citizen, community and decision-maker awareness
- Facilitate stakeholder participation in water resource decisions
