

Shale-Gas Development and Water Issues Symposium

Hydraulic Fracturing Technologies for Shale-Gas Development & Operation and Their Water Resources Impacts

March 22-23, 2012

Austin Marriott South - Austin, TX

Symposium Organizers:

American
Ground Water
Trust

American Institute
of Professional
Geologists

In Cooperation with:

American Geosciences Institute (AGI)

Association of Environmental and Engineering Geologists Texas Section (AEG)

Bureau of Economic Geology

Energy Institute, University of Texas at Austin

International Association of Hydrogeologists Commission on Groundwater for Decision Makers

Society of Independent Professional Earth Scientists with Special Thanks to the Houston Chapter (SIPES)

Keynote Speakers:

• **Dr. Scott Tinker** •

Director, Bureau of Economic Geology, Jackson School of Geosciences, University of Texas at Austin

• **Dr. Charles 'Chip' Groat** •

Associate Director, Energy Institute, Jackson School of Geosciences, University of Texas at Austin

This conference program will provide a balanced information-exchange opportunity among the energy industry, the water industry and citizens and communities with an interest in the economic potential of shale gas development and the long-term environmental sustainability of water sources and water dependent ecosystems.
