Illinois-Indiana Section: American Institute of Professional Geologists

SAVE THE DATE: October 15, 2014 Morton Arboretum, Lisle, Illinois

Vapor Intrusion Workshop - Part 2
Applications of the Illinois Vapor Intrusion Guidance
-AND-
Vendor Networking Night

Our section is excited to announce that the Fall Section Meeting will be held on October 15, 2014 at the Morton Arboretum in Lisle, Illinois. Additional details for registration and schedule will follow but mark this evening in your calendars!

The tentative itinerary:

- Section Business
- Vendor Technology and Networking (Up to 15 Exhibitors)
- Illinois Vapor Intrusion Training Workshop – Part 2 (75 person capacity)
 - Soil Gas Sampling Training (TBD, Craig McCammack – V3 Companies)
 - Tier 2 Training and Discussion of Tier 3 Models (Martin Hamper – GZA GeoEnvironmental, Inc.)
- Ask the Regulator Segment (Greg Dunn, Illinois EPA)

Attendees will receive Continuing Education Credits, Complimentary 1-Year Section Membership, and Workshop Notes.

FIELD TRIP ANNOUNCEMENT

Saturday August 9, 2014: Kentland Meteorite Impact Structure Mine, Indiana

The Illinois-Indiana Section of AIPG invites you to a field trip led by Dr. Nelson R. Shaffer of the Indiana Geological Survey. The adventure will unlock a unique aggregate mine that has operated for 110 years in a meteorite impact site near Kentland, Indiana, exposes more than 400 feet of structurally disrupted Paleozoic strata. Some units have been uplifted more than 1,500 feet. Mapping by R.C. Gutschick revealed the 7-mile, generally circular structure and delineated major fault and folds. But smaller geologic surprises are found during mining; impact indicators (such as shatter cones) are common, and planar features in quartz and high-pressure polymorphs (such as coesite) have also been found.

We will see some of the structural complications surrounding the un-mined central uplift and will examine smaller features in the quarry. Some easy walking is required. Hard hats are provided, but please wear closed-toe footwear.

Participants will earn 8 professional development hours

Contact Ramona Cornea at (815) 395-1221, (815) 978-7834 or email r.cornea@comcast.net

Registration Fee: \$50, Geology Students Free of Charge

(Registration Fee includes Lunch, Snacks, and Guidebook)

(Round Trip by a 15-passenger Van and Car Pool Transportation)

Make Checks Payable to AIPG IL-IN Section, and mail them to Ramona Cornea at 5704 Inverness Drive, Rockford, IL 61107 by July 20, 2014

Field Trip departs from Wang Engineering parking lot, 1145 N. Main St., Lombard, Illinois
Alternatively, participants can meet at the site
